Future-proof your business

Sustainable Packaging

*Don't wait for the ban.
Make the switch today.*

Bubble Wrap & Void Fill

Eco Pure Bubble Wrap

EcoPure® is an organic additive that causes plastic to degrade through a series of chemical and biological processes in a landfill disposal environment.

Bio Fill

An eco friendly alternative to packing 'peanuts'. Made from corn and potato starch.

Hexcel Wrap

Hexcel Wrap is another cushioning protect solution. It can solve all our wrapping and void fill needs. It is 100% recyclable, biodegradable, and compostable.

Crushed Paper

Continuous paper packaging solutions that are 100% recyclable. This high protective performance paper is naturally flexible and absorbs shock. With less material this will reduce waste for you and the end user.

Packaging Tape

Kraft Paper Tape

This multi purpose coated kraft paper tape has a high tack natural rubber and hot melt adhesive options. With sharp quality custom branding, this makes for the perfect solution for a premium seal on your boxes. Kraft tape is 100% recyclable and available in hand or machine size rolls.

PET Tape

PET Tapes are made from Post Consumer Recycling (PCR) materials. With options ranging from 50-90% PCR to support you in reducing your footprint and the need for virgin materials.

Water Activated

This is one of the original eco tape solutions, doubles up as tamper evidence tape with the residue it leaves when opened. Commonly seen on Amazon parcels.

Compostable

Made from renewable materials that have been tested and certified for biodegradation in an industrial composting facility. Ideal for cartons as well as sealing compostable bags.

Honeycomb Blocks

Polystyrene Alternative

Paper honeycomb is 100% recyclable solution to replacing your moulded polystyrene packaging. This fully customisable packaging has high impact resistance and is the welcomed solution you've been looking for.

Stretch Wrap

PCR Hand Wrap & Machine Wrap

30% PCR. Post Consumer Recycling Materials are derived from consumer waste that has completed its life cycle. Using PCR can significantly reduce your footprint by not only diverting from landfills, but also reducing the need for virgin plastic.

98% recycled Polypropylene

End caps included!

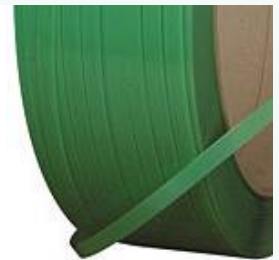

Strapping

PET Strapping

Made from high-quality polyester and is designed for high tension and performance capabilities. PET strapping is environmentally friendly & safe.

Doculopes & Mailing Bags

Paper Adhesive Envelope

100% recyclable paper envelopes. Made from translucent paper, these document wallets are user and environmentally friendly. The clear front panel allows for easy visibility of the enclosed information.

Eco Pure Courier Bags

EcoPure®, an organic additive that causes plastic to degrade through a series of chemical and biological processes in a landfill disposal environment.

Honeycomb and Paper Mailers

Eco-friendly mailing bags have been around for quite some time. With a variety of stock options available, there is a paper alternative for most applications.

Packaging Materials

Stretch Film & Plastic Wraps

Whether you're shipping pallets of goods that need to be secured, or need a way to increase the security of your freight, there's a stretch wrap in stock for your application. Hand and machine rolls available.

Packaging Tapes

Our extensive range of packaging and specialty tapes are suitable for all kinds of applications. From standard packaging tapes, construction tapes, double-sided tapes to adhesive envelopes.

Printed & Specialty Tapes

A range of Duct, Masking and Double-sided Tapes. Plus, Printed packaging tapes that serve multiple purposes. While securing your product packaging, they also offer that visual pop your brand needs.

- ✓ Effective advertising
- ✓ Acts as a security seal tape
- ✓ Professional brand promotion

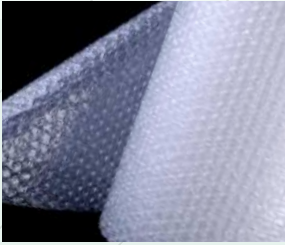

**Proudly Australian
made & designed**

Strapping & Accessories

Steel, PP, PET and Polywoven. Our strapping materials support a range of industries and product types. We stock all related accessories, tools and strapping machinery - keeping loads secure!

Protective Packaging

Our comprehensive protective packaging materials range of bubble wrap, air pillows, foam, void fill & multi-surfaces protection effectively safeguards all product-types for transportation & shipment.

Cardboard Boxes

Our full range of cardboard items are suitable for all kinds of applications. From Qikpak™ mailers, to IBCs, cardboard pallets, pads & more, in standard and heavy duty. Looking for something more custom? Lithographic packaging gets your brand noticed and delivers a high-end quality finish.

Plus Custom Branding

Sustainable Alternatives

Whether you're looking for protective packaging like bubble and void fills, or your basic wrap, strap and tapes - we have a variety of sustainable packaging options for you to consider.

Floor Protection

Our floor protection products protect flooring & other surfaces. They are the ideal protection for commercial and residential construction and renovation projects. Our range includes Construction Multi Guard, to Polycushion, Polywoven, Supabord, Hollowflute, tapes and more.

Timber Products

Our extensive range of industrial timber packaging products supports a variety of industries. We custom manufacture pallets, skids, cases, crates, pallet collars and nail less ply cases to meet the demands of local and ISPM15 export requirements.

Machinery

Can't keep up with orders? Need to improve productivity and reduce costs? You'll need our Stretch Wrap Machines. If you are manually wrapping your pallets with Hand Stretch Films, ask us how switching to a Semi Automated Stretch Wrap Machine can benefit your business.
